

Follow the steps below to set up email on your iPhone:

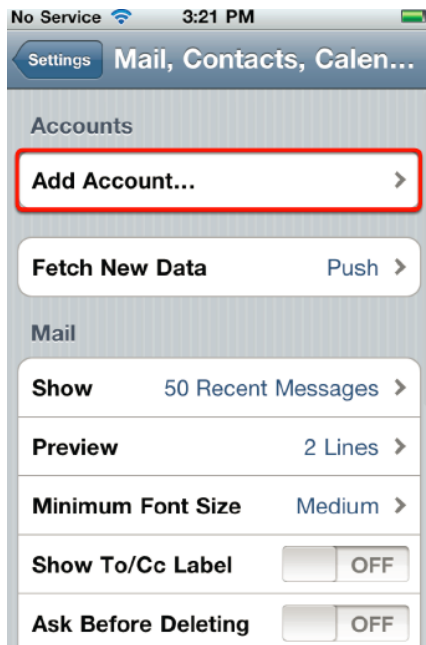

1. Tap **Settings** on your home screen:

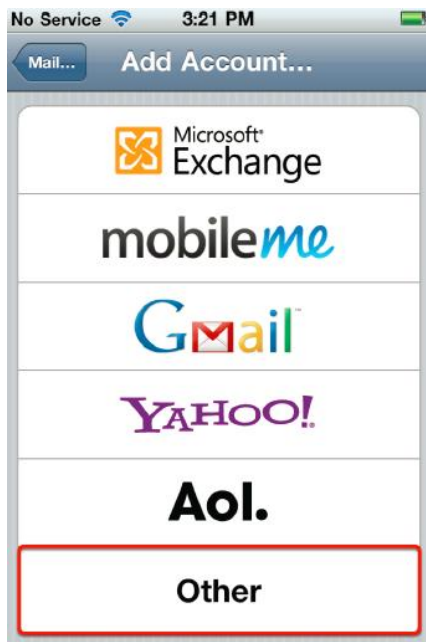

2. Scroll down and tap **Mail, Contacts, Calendars**.

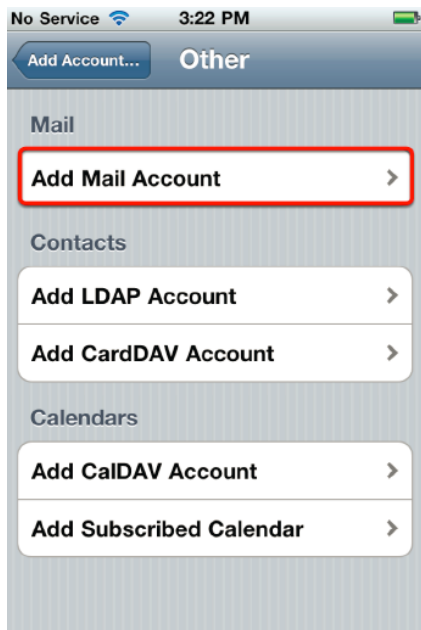

3. Tap the **Add Account** option.

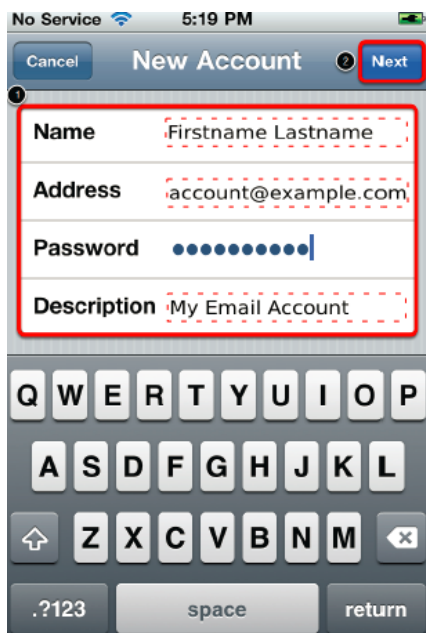

4. Tap **Other**.

5. Tap **Add Mail Account**.

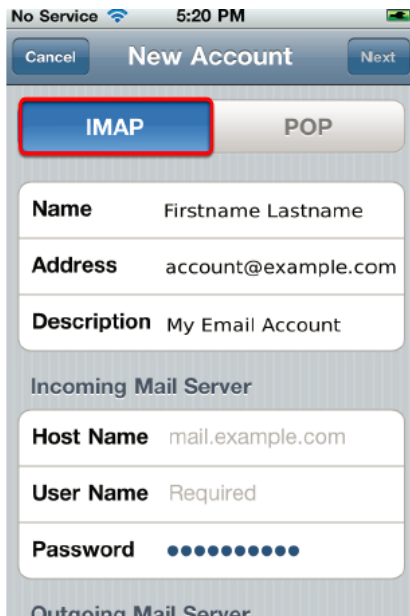

6. Enter the following settings and tap **Next** after you finish:

- **Name:** is the name displayed when you send email
- **Address:** is your full email address
- **Password:** is your email account password
- **Description:** is account description of your choice

7. Tap **IMAP** or **POP** (in this example will set up the device using IMAP):

8. Under the **Incoming Mail Server** section, enter the following settings:

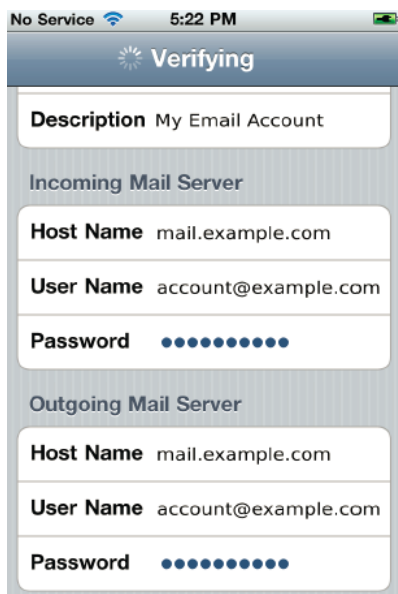

- **Host name:** is mail.your_domain
- **User name:** is your full email address
- **Password:** is your email account password
- **Scroll down to the Outgoing Mail Server section**

9. Under the **Outgoing Mail Server** section, enter the following settings and tap **Next** after you finish:

- **Host name:** is mail.your_domain
- **User name:** is your full email address
- **Password:** is your email account password

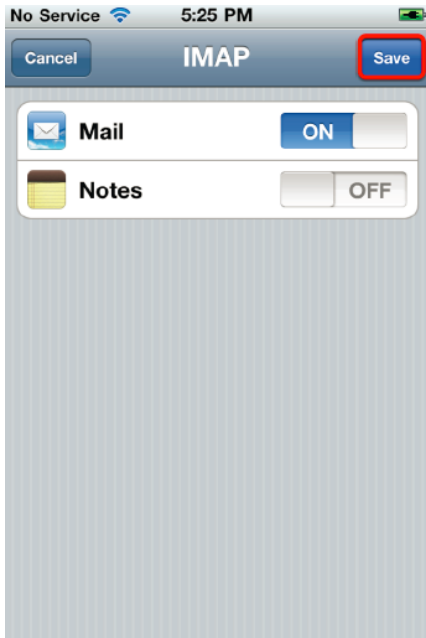

10. Your device will verify your email account settings. This may take several minutes.

11. If you receive an error indicating that you **Cannot Connect Using SSL** then tap **Yes** to continue without SSL.

12. Completing Account Configuration - tap **Save**

13. The email account configuration has been completed.
